Computer systems engineer with a strong passion for software development and problem-solving, I am dedicated to leveraging technology to enhance our lives. With over a year of experience in web development, I have honed my skills in creating robust and user-friendly applications. I thrive on the opportunity to tackle complex challenges and find optimal and innovative solutions, continuously seeking to improve the efficiency and effectiveness of software systems. My commitment to excellence and my ability to adapt to evolving technologies make me a valuable asset in any development team.

TECHNICAL SKILLS

JavaScript ES6+, CSS3, HTML5, SQL, NoSQL, GitHub, MongoDB, MySQL, Sequelize, Express, React, Node, Handlebars, jQuery, Bootstrap, Adobe xd, Figma.

Projects

Roomiehunt | <https://github.com/Enrique-V06/roomiefinder> |

- **Summary:** user-friendly app that simplifies the process of finding a shared home with compatible roommates. It allows users to search for homes based on their preferences, such as pet-friendly environments, desired number of roommates, and preferred locations. Additionally, users can also post their own homes if they are looking for roommates. With RoomieFinder, finding the perfect home and roommates has never been easier.
- **Role :** Back-end/ Front-end
- **Tools :** HTML, CSS, JavaScript, JQuery, API, Bootstrap, Node, Multer , Handlebars, MYSQL, dayjs, adobe xd

Fridge2Table | <https://github.com/mondragonSaiz/Fridge2Table> | <https://mondragonsaiz.github.io/Fridge2Table/>

- **Summary:** app that utilizes the Spoonacular API to suggest recipes based on the ingredients users have on hand. By simply inputting the available ingredients, users can quickly discover delicious recipes tailored to their specific ingredients. The app also provides a handy feature that identifies any missing ingredients, ensuring a seamless cooking experience.
- **Role:** Front-end
- **Tools:** HTML, CSS, JavaScript, JQuery, Spoonacular API, Bootstrap, adobe xd.

Experience

Trainee - Junior developer
Infosys

30/05/22- 25/11/22

Part of Foundation Program for Infosys CDMX, where I attended and certified in multiple web development courses through the company's platform, throughout the course I worked with teammates from all around the world in different mock-up projects, developing efficient solutions to real world problems.

Trainee - Front end Development
LearnAla

31/01/22 - 27/05/22

I had the opportunity to start working on a brand new development, where I designed and developed the main page front end part of the new product.

- **Summary:** The application consisted in an inventory for shops or business owners where they can easily track their inventory from their phones, or any other device and easing the job of updating the inventory as well.
- **Role:** Front-end
- **Tools:** (React.js | HTML | CSS | JavaScript | Material-U | Adobe Xd).

EDUCATION

Certificate, Full Stack Web Development – Tecnológico de Monterrey, EDX	Ciudad de México
Bachelor's Degree in Computer Systems Engineering – Universidad del Valle de México	Ciudad de México
